BRIT-THERM DOMESTIC SHUTTERS

Insulated comfort for your home garage

Brit-Therm is a made-to-measure domestic roller garage door combining a neat residential appearance with lightweight insulated construction. Its 77 mm double-skinned aluminium lath helps reduce heat loss compared with a single-skin shutter, while the compact fascia and guides provide a clean finish for the home.

Brit-Therm specification

- 77 mm insulated aluminium lath
- Nylon endlocks to each section
- Double-skinned lightweight curtain construction
- Anti-fall brake fitted as standard
- UKCA marked
- Approx. 300-330 mm headroom, size dependent
- Key switch or rocker standard; remote unit + 2 handsets optional
- Internal manual override for power loss

Why choose Brit-Therm?

- **Insulated lath helps reduce heat loss**
- **Lightweight construction supports smooth operation**
- **Neat flat fascia for a clean domestic finish**
